# Minority

Green day

Guitar akkorder

```
C      F      G      F
* I want to be the minority

 C      F      G      F
I don't need your authority

 C      F      G      F
Down with the moral majority

 C      F      G      F
'Cause I want to be the minority

C         G           F         G
I pledge allegiance to the underworld

C         G           F         G
One nation under dog there of which I stand alone

C           G             F             G
A face in the crowd unsung, against the mold

C              G             F            C
Without a doubt, singled out, the only way I know

 C      F      G      F
* I want to be the minority

 C      F      G      F
I don't need your authority

 C      F      G      F
Down with the moral majority

 C      F      G      F
'Cause I want to be the minority

Am    E      F      C
Stepped out of the line

Am      E        F        G
Like a sheep runs from the herd

Am    E      F    C
```
