# Wish you ware here

Pink floyd

Guitar akkorder

---

**Intro:**

```
Em       G       Em       G     Em     A      Em     A      G     G       (2x)
```

```
C                            D                  Am                      G
   So, so you think you can tell, heaven from hell?  Blue skies from pain?

                      D                         C                     Am
Can you tell a green field, from a cold steel rail?  A smile from a veil?

                      G                           C                      D
Do you think you can tell?  Did they get you to trade, your heroes for ghosts?

              Am                     G                                D
Hot ashes for trees?  Hot air for a cool breeze?  Cold comfort for change

              C                               Am                          G
And did you exchange, a walk-on part in the war, for a lead role in a cage...
```

SOLO: (like Intro)

```
Em       G       Em       G     Em      Am     Em     Am     G     G

C                               D
How I wish, how I wish you were here

           Am                                      G                   D
We're just two lost souls swimming in a fishbowl, year after year

                                  C                                     Am
Running over the same old ground, what have we found - the same old fears?

              G
Wish you were here
```

Repeat Intro and fade to wind
