The Gardens Tale

Volbeat

Guitar akkorder

```
C
Time keeps painting my darling
C
Ripped all the flowers in the garden
F            C
Oh baby come home
F                    C
you angels bring her home

C
Imens står solen over højen
    C
Han mindes den sommer hvor hun strålede
F                 C
Forsvandt i haven grøn
F                    C
og træernes sang hun fandt

C
Time keeps painting my darling
F                                      C
And the garden keeps on singing the old song
        Am         G              F
Oh baby still I am waiting in the light
           C            G         C
Hoping the angels would carry you home

    C
Den sang tog mørket i sin pote
    F                            C
Den bar hans kvinde i dens kolde favn
               Am           G      F
Og lagde hende for hans dør i silkekjole
           C            G         C
Hoping the angels would carry you home

           F               G
Leaving it all with my only friend
               C               F
Her beauty was lifeless on the stair
             F         G
Oh baby I´ll carry you away
         C
into the garden´s tale

                    F                G
```

```
But everything (had) died and turned to stones
                C             F
I laid her down under the old oak
          F G
Seing it all
            C
blossom forever more

*solo*

C
Time keep on painting my darling
         F                                C
And the garden keeps on singing the old song
         Am          G              F
Oh baby now I know you´re in the light
             C              G         C
Painting it all with your colorful songs

C
Imens står solen over højen
     F                          C
Hans skygge kastes ud i haven grøn
               Am       G       F
Forsvandt for evigt og uden en note
            C             G          C
Hoping the angels would carry you home

            F                 G
Leaving it all with my only friend
                C                F
Her beauty was lifeless on the stair
              F          G
Oh baby I´ll carry you away
          C
into the garden´s tale

                      F                  G
But everything (had) died and turned to stones
                C             F
I laid her down under the old oak
          F G
Seing it all
            C
blossom forever more

*solo again*

C
Time keeps painting my darling
C
```

Ripped all the flowers in the garden
F **C**
Oh baby you´re home
F **C**
you angels where are you.
