They had a warrant out for me all over country

                                       E
and I was trying to beat two raps in Idaho,

      A                                      D
I was breaking into a school house sunday morning without warning

A                       E             A
when I saw the sheriff coming for me slow from down below

A                         E               A
His steel grey eyes were blazing when he saw me

                                       E
his hand was on his gun when he rode up

   A                                      D
he said you killed that woman I know you shot her why'd you do it?

A                  E          A
I'm taking you to Austin and I'm gonna lock you up

A                         E                 A
Well he tied me with the plowline the next morning

                                       E
and he had me deep in Texas the next day

A                                 D
A crazy screaming lynchmob waited in streets of Austin

A                     E                A
but he put me in the jailhouse and he threw the key away

A               E                   A
a jury found me guilty three months later

                                     E
weld evil men with murder in their eyes
