Country Trash

Johnny cash

Guitar akkorder

```
D                          G
I got a crib full of corn, and a turnin' plow
         A                      D
But the grounds to wet for the hopper now.
D                       G
Got a cultivator and a double tree
   A                    D
A leather line for the hull and gee
         D                      G           (pause)
Let the thunder roll and the lighting flash
    A                  D
I'm doing alright for Country Trash
```

Verse 2:

```
    D                     G
I'm saving up dimes for a rainy day
  A                   D
I got about a dollar laid away
    D                             G
The winds from the south and the fishings good
      A                      A
Got a pot belly stove and a quart of wood
     D                      G  (pause)
Mama turns the left-overs into hash
     A                  D
I'm doing alright for Country Trash
```

Verse 3:

```
         D              G
I got a machina and a hunting dog
   A                      D
A cap I ordered from the catalog
D                       G
A good tall tree that shades the yard
   A                    D
A good fat sow for the winters lard
         D                       G  (pause)
Let the thunder roll and the lighting flash
    A                  D
I'm doing alright for Country Trash
```

Verse 4:

```
             D                     G
Well there's not much new ground left to plow
```

```
        A                D
And the crops need fertilizer now
D                       G
My hands don't earn me too much gold
      A           D
For security when I grow old
          D              G  (pause)
But we'll all be equal under the grass
    A                        D
And God's got a heaven for Country Trash

A                       D
God's got a heaven for Country Trash
        A                   D
I'll be doing alright for Country Trash
```
