D                D7
I reMember when I was a Lad
Now I remember after work
           G                D
Times were Hard and things were Bad
Momma would call in all of us
*             *            A7/E7/A7
But there's a Silver Linin' Behind Every Cloud
You could hear us singin' for a country mile
D                               D7
Just poor People that's all we Were
Now, Little brother has done gone on,
*             G                     D
Try'n' to make a Livin' outta blackland Dirt
On ...  But I'll    re-Join him in a           Song
D                                          A7          D
We'd get together in a family circle       Singin'   Loud
We'll be together again up yonder in a   Little     While
