High

LightHouse Family

Guitar akkorder

```
A#                                F                        Gm              D#
 When you´re close to tears remember someday it´ll all be over
 A#                          F     Gm  D#
 one day we gonna get so high.
 A#                          F                    Gm                    D#
 Though it´s darker than december what´s ahead is a different colour
 A#                               F      Gm  D#
 one day we´re gonna get so high.

CHORUS:
          F#m7                                              Em7
And at the end of the day remember the days when we were close to the end
F#m7                       Em7
and wonder how we made it throught the night.
F#m7                                              Em7
At the end of the day remember the way we stayed so close to the end
F#m7                             E          F#
We´ll remember it was me and you
           A#                F  Gm                  D#              A#        F
Cause we are gonna be forever you and me, you'll always keep it flying high
       Gm     D#
in the sky of love

A#                           F             Gm              D#
Don´t you think it´s time you started doing what we always wanted
A#                     F    Gm  D#
one day we´re gonna get so high
A#                   F           Gm               D#
Cause even the impossible is easy when we got each other
A#                     F    Gm  D#
one day we´re gonna get so high

Chorus Again 2x
```
