enterlude

the killers

Guitar akkorder

her er enterlude med the killers, jeg ved godt at det IKKE bliver spillet på guitar men det lyder godt, og soloen er nem

```
      Am        C         F
We hope you enjoy your stay
         Am                G             F                    C   G/B
And it's good to have you with us, even if it's just for the day
    Am        G          C    F
We hope you enjoy your stay
   Am               G                       F              C   G/B
Outside the sun is shining, it seems like heaven ain't far away
         Am                G             F                    C
And it's good to have you with us, even if it's just for the day
```

```
   C                                      Am                                      G           F
