Verse 1:
G
Tryin' to say I'm sorry, didn't mean to break your heart.
F                                       C
And find you waitin' up by the light of day.
G                                     D
There's alot I wanna tell you, but I don't know where to start.
F                                          C
And I don't know what I'd do if you walked away.
Am                       D    Am             C           D
Ohh, baby I tried to make it, I just got lost along the way.

Chrous:
                 G           C-D                          G
But every time I look at you..... No matter what I'm goin' thru'
      C        D
It's easy to see.
                 Em            D              G
And every time I hold you, the things I never told you
        C            D
Seem to come easily.
                                   G-C-G-C
'Cause your everything to me.

Verse 2:
G
I never really wanted, to let you get inside my heart.
F                                      C
I wanted to believe this would soon be ending.
G                                    D
I thought it wouldn't matter, if it all just came apart.
F                            C

Nothing different from the original song except that this version uses a capo to allow you to use straight chords rather than bar chords, which is why I wrote this version. I hate bar chords.
