The Day After Tomorrow

Saybia

Guitar akkorder

```
F#m    A     D                A
Please tell me why do birds sing when you're near me
D                F#m      G    E
Sing when you're close to me
             F#m    A     D               A
They say that I'm a fool for loving you deeply
D          F#m     G    E   (hold out longer on both G and E)
Loving you secretly

      Bm        G        A              E
But I crash in my mind whenever you are near
      Bm        G        A              E
Getting deaf, dumb and blind just drowning in despair
      Bm        G        A              E
I am lost in your flame, it's burning like the sun
      Bm        G        A              E       (hold out on last E)
And I call out your name whenever you are gone

             F#m    A     D                A
Please tell me why can't I breathe when you're near me
D                  F#m      G    E
Breathe when you're close to me
           F#m    A     D          A
I know you know I'm lost, loving you deeply
D          F#m     G    E   (hold out longer on both G and E)
Loving you secretly

      Bm        G        A              E
But I crash in my mind whenever you are near
      Bm        G        A              E
Getting deaf, dumb and blind just drowning in despair
      Bm        G        A              E
I am lost in your flame, it's burning like the sun
      Bm        G        A              E       (hold out on last E)
And I call out your name whenever you are gone

Bm    D    A       E
Tomorrow......I'll tell it all
Bm    D    A       E
tomorrow......or the day after
Bm    D    A       E
tomorrow......I'm sure I'll tell you then
```

Solo:
Bm G A E x4

```
      Bm        G        A              E
But I crash in my mind whenever you are near
      Bm        G        A              E
Getting deaf, dumb and blind just drowning in despair
         Bm        G        A              E
Well I'm lost in your flame, it's burning like the sun
      Bm        G        A              E       (hold out on last E)
And I call out your name whenever you are gone
```
