G-------------------------------------------------------------------|
D-------------------------------------------------------------------|
A-------------------------------------------------------------------|
E-------------------------------------------------------------------|
```

Verse 1

```
                  Cmaj7
I miss you so much boy
G/b                     E
 Will we be coming on again
Em                     Am
 Don't ever lose your ropes

C                            G   D
 This man is hanging by the eee-ends
                  Hm
I owe you so much time
C                                Cmaj7     Am
 Yes you may say it isn't like that - at all
               F
But now it's coming back to you
              D7
These open moments that I blew
```

Chorus

```
                           Hm
Rocket brothers crack and burst
C                               G
 If they can't meet upon the verge
Am                            Hm
 Of breaking into separate parts
C                               G    D
 That was not written in our caaa-ards
Cmaj7                           G
 Now you've got someone to protect
Cmaj7                 G   Cmaj7 (break)
 Someone you cannot reject
```

Verse 2

```
                  Cmaj7
I miss you so much boy
G/b                          E
 But I was buried in the mines
Em                      Am
 I've found it hard to stop
C                               G    D
 You've found me very hard to fiii-ind
                          Hm
But now that you've made way
C                                          Am
 I'd better tie together these ropes - again
               F
And throw the times right back to you
              D7
And all the chances that I blew
```

Chorus

```
                              Hm
Rocket brothers crack and burst
C                                G
 If they can't meet upon the verge
Am                             Hm
 Of breaking into separate parts
C                                G    D
 That was not written in our caaa-ards
                                 Hm
Those rocket brothers on the verge
C                                          G
 We should be careful cause it could burst
Am                         Hm
 Now were not lonely anymore
C                        G    D
 Lonely as we were befooo-ore
Cmaj7                            G
 And now there's someone to protect
Cmaj7                   G
 Someone you cannot reject
Cmaj7                      G
 Something I will not neglect
Cmaj7
No
```
