Losing You

Kira & the Kindred Spirits

Guitar akkorder

Standard tuning

Intro: Bm, D (with Dsus4 hammer-on), G, E

Intro fill:

b = bend string
p = pull-off
/ = slide up
\ = slide down

```
e---b7-----b7-----------b7-----b7-----------------------------------------|
B-------7-----7----5---------7-----7p5---7\9----9p8--b12--9p8-------------|
G---------------------7-------------------------------------------------|
D-------------------------------------------------------------------------|
A-------------------------------------------------------------------------|
E-------------------------------------------------------------------------|
```

Vers:

```
   Bm                   D       Dsus4 hammer-on
Tonight I'll go to bed, unsatisfied
   G                            E
My world is caving in, and I've got no place left to hide

Bm                         D        Dsus4 hammer-on
I won't let you down, but I got scares in my mind
      G                             E
Your life is in my hands, I can't pretend that things are fine

    Bm                 D               Dsus4 hammer-on
Although I am scared, to sing you this song
     G                                 E
I'm scared the words I say will cast a stone the damage done

     Bm                         D             Dsus4 hammer-on
And all that we have tried, and all that we did wrong
     G                                 E
And who will hold the blame and who will fight 'till love moves on?
```

Chorus:

```
    G  F#        Bm               E
And I'm... I'm losing... yes I'm losing you again
    G  F#     Bm          E
And I'm... losing you... again

        Bm
How is that baby?
        D        Dsus4 hammer-on
How is that baby?
        G
How is that
      E
my friend?
```

Vers:

```
Bm                            D               Dsus4 hammer-on
You've got your pain to tend to, a day to put an end to
   G                          E
A womb to climb back in to and a love that never bends you

    Bm                                  D        Dsus4 hammer-on
And all it seems I'm left with is some clarity to lend you
 G                             E
All it seems I'm left with is some truth to offend you
```

Chorus:

```
     G F#        Bm                E
And I'm... I'm losing... yes I'm losing you again
     G F#     Bm          E
And I'm... losing you... again
```

Bridge:

```
          D    C          G
Have you ever waited too long?
          D         C             G
When you knew your life had gone wrong
```

Solo chords:

Bm, D (with Dsus4 hammer-on), G, E

Chorus:

```
     G  F#         Bm                  E
And I'm... I'm losing... yes I'm losing you again
     G  F#     Bm             E
And I'm... losing you... again
```

Outro:

```
      Bm       E              Bm
And again... and again... and again
```
