Stand by me

Guitar akkorder

```
G
When the night has come
Em
And the land is dark
        C
And the moon
       D                G
Is the only light we’re seeing
No I want be afraid
No I, I want be afraid
Just this long
As you stand
Stand by me

So darling, darling
Stand by me
Woooow stand by me
Woooow stand
Stand by me
Stand by me

If the sky that we look upon
Shut tumble and fall
And the mountains
Shut crumble
To the see
I want cry
I want cry
No I, I want shed a tear
Just this long
As you stand
Stand by me

So darling, darling
Stand by me
Woooow stand by me
Woooow stand
Stand by me
Stand by me

Whatever you in trouble would you
Stand by me
Woooow stand by me
Woooow stand
Stand by me
Stand by me
```

So darling, darling
Stand by me
Woooow stand by me
Woooow stand
Stand by me
Stand by me
