```
E          C
It's early morning
    E         Am
The sun comes out
     E         C
Last night was shaking
    E      Am
And pretty loud
   E      C
My cat is purring
    E            Am
And scratches my skin
   E       C
So what is wrong
     E       Am
With another sin
    E        C
The bitch is hungry
    E        Am
She needs to tell
   E        C
So give her inches
    E        Am
And feed her well
     E       C
More days to come
    E         Am
New places to go
     E      C
I've got to leave
     E          Am
It's time for a show
```

(Don't Mute)

```
E         C A7 C    D          E
    C A7 C D

    C A7 C D
Here I am,     rock you like a hurricane
```

(Mute)

```
   E       C
My body is burning
   E         Am
It starts to shout
E         C
Desire is coming
   E          Am
It breaks out loud
E          C
Lust is in cages
         E            Am
Till the storm breaks loose
     E            C
Just have to make it
     E         Am
With someone I choose
    E        C
The night is calling
  E       Am
I have to go
    E       C
The wolf is hungry
   E       Am
He runs to show
     E           C
He's licking his lips
     E        Am
He's ready to win
       E    C
On the hunt tonight
    E             Am
For love at first sting
```
