C
Hooow?
G          Am
Haaaa-oooo-ow-ow?
G               F-G
Haaaa-ahah-ah-ooow?

  Am
I can’t believe what you said to me
     G
Last night when we were alone
    F
You threw your hands up
        G            Ab/E
Baby you gave up, you gave up

  Am
I can’t believe how you looked at me
          G
With your James Dean glossy eyes
        F
In your tight jeans with your long hair
       G     Ab/E
And your cigarette stained lies

Am      Ab/E                  G
Could we fix you if you broke?
             F#/D              C
And is your punch line just a joke?

     G               Am
I’ll never talk again
   G                  F
Oh boy you’ve left me speechless
               G              Ab/E
You’ve left me speechless, so speechless

    C    G               Am
And I'll never love again
   G                  F
Oh boy you've left me speechless
               G           (No chord)
You've left me speechless, so speechless.
```

```
  Am
I can’t believe how you slurred at me
         G
With your half wired broken jaw
          F
You popped my heart seams
      G
On my bubble dreams, bubble dreams

  Am
I can’t believe how you looked at me
          G
With your Johnnie Walker eyes
           F
He’s gonna get you and after he’s through
               G                    Am
There’s gonna be no love left to rye

                     Ab/E
And I know that it’s complicated
                           G
But I’m a loser in love, so baby

Raise a glass to mend
                     F#/D
All the broken hearts

Of all my wrecked up friends

C    G               Am
I’ll never talk again
   G                  F
Oh boy you’ve left me speechless
               G            Ab/E
You’ve left me speechless, so speechless

    C    G               Am
And I'll never love again
   G                       F
Oh Friend you've left me speechless
               G
You've left me speechless, so speechless.

C
Hooow?
G          Am
Haaaa-oooo-ow-ow?

Haaaa-ahah-ah-ooow?
```

F                             E

C         G              Am-F
And I'll never love again

C    G              Am
I'll never write a song
      G          F
Won't even sing along

I'll never love again

    G              F
So speechless, hey hey.

C    G            Am
Some men may follow me

But you choose "death and company"

Why you so speechless? Oh, oh
