Dm Am Em Am

```
     Dm           Am
Your eyes, your shoes
      Em       Am
It’s hard to choose
        Dm          Am
But the best thing about you
       Em            Am
Is the way that you move
```

```
Dm        Am
Side by side
       Em         Am
All through the night
         Dm                Am
And the thing we drop the most
      Em                Am
Is to see the more in life

Dm   Am
Hey okay!
                Em           Am
Why don’t you stay another day
            Dm     Am
And if it feels alright
           Em            Am
Will you stay another night

Dm     Am
Hey alright!
                Em            Am
Why don’t you stay another night
            Dm    Am
And if it feels okay
           Em          Am
Will you stay another day

      Dm       Am
Your place or mine
    Em          Am
Whatever, it’s fine
      Dm          Am
Lets dance, let’s sue
     Em    Am
The night away

    Dm        Am
No fear, no shame
    Em        Am
We play this game
        Dm          Am
And the best thing about you
   Em                    Am
I don’t even know your name

Dm   Am
Hey okay!
                Em           Am
Why don’t you stay another day
            Dm     Am
And if it feels alright
```

```
          Em            Am
Will you stay another night

Dm     Am
Hey alright!
               Em            Am
Why don’t you stay another night
           Dm    Am
And if it feels
```
