When you walk in the room

Sanne Salomonsen

Guitar akkorder

When You Walk In The Room (Jackie DeShannon)

```
A
I can feel a new expression on my face
                                        E
I can feel a glowing sensation taking place
      D                E              A  A/G#  F#m
I can hear the guitars playing lovely tunes
D     C#m        E               A
Every time that you walk in the room
A
I close my eyes for a second and pretend it's me you want
                                    E
Meanwhile I try to act so nonchalant
   D               E             A  A/G#  F#m
I see a summer's night with a magic moon
D     C#m       E               A
Every time that you walk in the room
D  C#m       E
Maybe it's a dream come true
D        C#m        E
Walking right alongside of you
A                          F#m
Wish I could tell you how much I care
B7                            E
But I only have the nerve to stare
 A
I can feel-a something pounding in my brain
                                     E
Just anytime that someone speaks your name
D                   E               A   A/G#  F#m
Trumpets sound and I hear thunder boom
D     C#m       E                 A
Every time that you walk in the room
D     C#m        E                A
Every time that you walk in the room
```
